

Professional Summary

AI Engineer with hands-on experience designing scalable Generative AI systems, LLM-powered applications, and Agentic AI workflows. Skilled in RAG pipelines, multi-agent orchestration using **LangChain** and **LangGraph**, and production REST APIs with **FastAPI**. Experienced across the full AI lifecycle - model training (PyTorch/TensorFlow), prompt engineering, vector databases, and cloud deployment.

Experience

AI Engineer Intern

Calsoft Pvt. Ltd.

Mar 2026 – Aug 2026

- Architected **VMExit** - automated VMware-to-OpenStack cloud migration using **LangGraph** multi-agent orchestration with Human-in-the-Loop (HITL) approval checkpoints and rollback handling.
- Engineered **CalRetail (Live)** - a production AI platform for retail operations implementing demand forecasting, dynamic pricing, personalized recommendations, and GenAI-powered customer assistance across 5,000+ SKUs.
- Designed a **LangGraph + LangChain RAG** application integrating semantic search, structured product metadata, and LLM orchestration to deliver context-aware customer assistance.

AI Engineer Intern

ConstemsAI

Dec 2025 – Feb 2026

- Audited and corrected SKU-to-shelf mappings across the Thailand product catalog, resolving HID (Horizontal Indexing Defect) issues and restoring accurate product indexing.
- Developed automated data validation and cleaning pipelines to detect missing, duplicate, and corrupted records across large-scale retail datasets.
- Restored and validated end-to-end ETL pipelines for the Philippines product catalog, ensuring reliable downstream data processing and production data availability.

Projects

Health O.K - Multi-Agent AI Healthcare Assistant

Live | GitHub

LangGraph · LangChain · FastAPI · ChromaDB · React · PostgreSQL · Docker

- Architected a multi-agent AI healthcare assistant using **LangGraph** with safety screening, memory, RAG, output validation, prompt injection detection, jailbreak prevention, and PII redaction.
- Integrated a citation-grounded RAG pipeline with **ChromaDB**, JWT authentication, and a CI/CD pipeline covering automated tests and Docker builds.

Adaptive Retrieval Intelligence (ARI)

Live | GitHub

LangGraph · LangChain · FastAPI · ChromaDB · Netlify · Pydantic

- Built a stateful **RAG system** using LangGraph with self-correcting loops for document reranking, self-reflection, and recursive query expansion.
- Implemented hybrid retrieval using **ChromaDB**, **BM25**, and **RRF**, with SSE streaming endpoints on FastAPI publishing real-time node outputs and pipeline logs.

EduBlink - Smart Learning Tool

Live | GitHub

Python · FastAPI · FastMCP · Docker · OpenAI API · React · SQLAlchemy · Render

- Built a full-stack AI learning platform using **FastAPI** and React generating 10+ classroom resources (MCQs, worksheets, code snippets) in under 3 seconds.
- Engineered a multi-step Course Builder Agent chaining LLMs across 4 sequential stages with real-time SSE streaming and **Model Context Protocol (FastMCP)** exposing 10 tools to Claude Desktop.

Technical Skills

ML / DL: PyTorch, TensorFlow, Scikit-learn, XGBoost, Transformers, NLP

Generative AI & LLMs: LangChain, LangGraph, RAG, Agentic AI, Multi-Agent Systems, LLM Fine-tuning, LLM and RAG Evaluation, Model Context Protocol (MCP), OpenAI API

Backend & APIs: Python, FastAPI, REST APIs

Data & Vector Databases: PostgreSQL, ChromaDB, FAISS, Pinecone

Cloud & DevOps: Docker, GitHub Actions, Hugging Face, Render, Netlify

Frontend & Tools: React.js, Streamlit, Pandas, NumPy, Git/GitHub

Education

B.Tech — Artificial Intelligence & Machine Learning

Oct 2022 – July 2026

Galgotias College of Engineering and Technology, Greater Noida, Uttar Pradesh

Certifications

- AI Intern** - Calsoft Pvt Ltd

Aug 2026
- Complete AI and ML Bootcamp** - Udemy

May 2025
